1.5 Mode of Delivery On-campus

1.6 Pre-requisites Nil

1.7 General Study and Resource Requirements

- Students are expected to attend classes with the weekly worksheets and subject support material provided in Moodle. Students should read this material before coming to class to improve their ability to participate in the weekly activities.
- Students will require access to the internet and their KOI email and should have basic skills in word processing software such as MS Word, spreadsheet software such as MS Excel and visual presentation software such as MS PowerPoint.
- Computers and WIFI facilities are extensively available for student use throughout KOI. Students are encouraged to make use of the campus Library for reference materials.

ECO100

Resource requirements specific to this subject: Students will need a non-

programmable calculator for some parts on this subject. Applications in smart phones will not be sufficient to perform the required calculations. Smartphones and smartwatches will not be allowed in the final exam.

2. Academic Details

2.1 Overview of the Subject

This subject is an introduction to economics. The first half of the subject deals with microeconomic issues focusing on the behaviour of individual economic agents (consumers, resource-owners, businesses), with the choices and decisions made by these agents and with the effects of these decisions on other agents. The second half deals with key macroeconomic issues such as GDP, economic growth, unemployment, inflation, fiscal policy with taxes and government spending, monetary policy with interest rates and money supply, the exchange rate, the current and capital accounts, other government economic policies related to these issues, and the impact of changes in such policies and economic environment on national and global economy as a whole, including financial markets, households and firms.

It is expected that upon completion of this subject students will have a sufficiently good working knowledge of basic economic theory and practice to be able to read and understand economic commentaries in sources such as the Australian Financial Review, The Economist, the finance section of the daily newspapers and various business and financial journals.

2.2 Graduate Attributes for Undergraduate Courses

Graduates of the *Bachelor of Business (Accounting),* and the *Bachelor of Business (Management and Finance)* courses from King's Own Institute will gain the graduate attributes expected from successful completion of a Bachelor's degree under the Australian Qualifications Framework (2nd edition, January 2013). Graduates at this level will be able to apply an advanced body of knowledge in a range of contexts for professional practice or scholarship and as a pathway for further learning.

King's Own Institute's key generic graduate attributes for a bachelor's level degree are summarise	d below:
--	----------

	KOI Bachelor Degree Graduate Attributes	Detailed Description	
	Knowledge	Current, comprehensive and coherent knowledge	
	Critical Thinking	Critical thinking and creative skills to analyse and synthesise information and evaluate new problems	
28	Communication	Communication skills for effective reading, writing, listening and presenting in varied modes and contexts and for transferring knowledge and skills to others	
	Information Literacy	Information and technological skills for accessing, evaluating, managing and using information professionally	
A B	Problem Solving Skills	Skills to apply logical and creative thinking to solve problems and evaluate solutions	
	Ethical and Cultural Sensitivity	Appreciation of ethical principles, cultural sensitivity and social responsibility, both personally and professionally	
	Teamwork	Leadership and teamwork skills to collaborate, inspire colleagues and manage responsibly with positive results	
	Professional Skills	Professional skills to exercise judgement in planning, problem solving and decision making	

Across the course, these skills are developed progressively at three levels:

- **Level 1 Foundation** Students learn the basic skills, theories and techniques of the subject and apply them in basic, stand-alone contexts.
- **Level 2 Intermediate** Students further develop skills, theories and techniques of the subject and apply them in more complex contexts, beginning to integrate the application with other subjects.

ECO100

 Level 3 Advanced – Students have a demonstrated ability to plan, research and apply the skills, theories and techniques of the subject in complex situations, integrating the subject content with a range of other subject disciplines within the context of the course.

2.3 Subject Learning Outcomes

This is a Level 1 subject.

2.7 Teaching Methods/Strategies

Briefly described below are the teaching methods/strategies used in this subject:

- *On-campus lectures* (2 hours/week) are conducted in seminar style and address the subject content, provide motivation and context and draw on the students' experience and preparatory reading.
- Tutorials (2 hours/week) include class discussion of case studies and research papers, practice sets and problem-solving and syndicate work on group projects. Tutorial participation is an essential component of the subject and contributes to the development of graduate attributes (see section 2.2 above). It is intended that specific tutorial material such as case studies, recommended readings, review questions etc. will be made available each week in Moodle.
- Online teaching resources include class materials, readings, model answers to assignments and exercises and discussion boards. All online materials for this subject as provided by KOI will be found in the Moodle page for this subject. Students should access Moodle regularly as material may be updated at any time during the trimester
- Other contact academic staff may also contact students either via Moodle messaging, or via email to the email address provided to KOI on enrolment.

2.8 Student Assessment

Provided below is a schedule of formal assessment tasks and major examinations for the subject.

Assessment Type	When assessed	Weighting	Learning Outcomes Assessed
Assessment 1: Attendance & Participation	Weekly	10%	a, b, c, d
Assessment 2: Mid-trimester test (1.5 hours)	Week 6	25%	a, b, d
Assessment 3: Individual assignment – Problem solving questions	Week 8	20%	a, b, d
Assessment 4: Final examination (3 hours)	Final Exam Period	45%	a, c, d

Requirements to Pass the Subject:

To gain a pass or better in this subject, students must gain a *minimum of 50%* of the total available subject marks.
