

TSL717 NEW TECHNOLOGIES IN LANGUAGE TEACHING T324 BRIEF

All information in the Subject Outline is correct at the time of approval. KOI reserves the right to make changes to the Subject Outline if they become necessary. Any changes require the approval of the KOI Academic Board and will be formally advised to those students who may be affected by email and via Moodle.

Information contained within this Subject Outline applies to students enrolled in the trimester as indicated

1. General Information

1.1 Administrative Details

Associated HE Award(s)	Duration	Level	Subject Coordinator
Graduate Diploma TESOL Master of Arts TESOL	1 trimester	Postgraduate	Amanda Herring amanda.herring@koi.edu.au P: +61 (2) 9283 3583 L: Level 1-2, 17 O'Connell St. Consultation: via Moodle or by appointment

1.2 Core / Elective

This is an elective subject for the above courses.

1.3 Subject Weighting

Indicated below is the weighting of this subject and the total course points.

Subject Credit Points	Total Course Credit Points
4	GD TESOL 32; MA TESOL 48

1.4 Student Workload

Indicated below is the expected student workload per week for this subject

No. Timetabled Hours/Week*	No. Personal Study Hours/Week**	Total Workload Hours/Week***
3 hours/week plus supplementary online material	7 hours/week	10 hours/week

* Total time spent per week at lectures and tutorials

** Total time students are expected to spend per week in studying, completing assignments, etc.

*** Combination of timetable hours and personal study.

1.5 Mode of Delivery Face-to-face or hybrid. Certain classes will be online (e.g., special arrangements).

1.6 Pre-requisite Nil

1.7 General Study and Resource Requirements:

- Students are expected to attend classes with the required textbook and to read specific chapters prior to the tutorials. Students should read this material before coming to class to improve their ability to participate in the weekly activities.
- Students will require access to the internet and their KOI email and should have basic skills in word processing software such as MS Word, spreadsheet software such as MS Excel and visual presentation software such as MS PowerPoint.
- Computers and WIFI facilities are extensively available for student use throughout KOI. Students are encouraged to make use of the campus Library for reference materials.

Resource requirements specific to this subject: Zoom, Google collaborative documents, Moodle.

1.8 Academic Advising:

Academic advising is available to students throughout teaching periods including the exam weeks. As well as requesting help during scheduled class times, students have the following options:

Consultation times: A list of consultation hours is provided on the homepage of Moodle where appointments can be booked.

Subject coordinator: Subject coordinators are available for contact via email. The email address of the subject coordinator is provided at the top of this subject outline.

Academic staff: Lecturers and Tutors provide their contact details in Moodle for the specific subject. In most cases, this will be via email. Some subjects may also provide a discussion forum where questions can be raised.

Head of Program: The Head of Program is available to all students in the program if they need advice about their studies and KOI procedures.

Vice President (Academic): The Vice President (Academic) will assist students to resolve complex issues (but may refer students to the relevant lecturers for detailed academic advice).

2. Academic Details

2.1 Overview of the Subject

This elective subject aims to provide students with effective skills in the use and evaluation of educational technologies within the TESOL classroom. The course readings aim to introduce students to a range of up-to-date theories, methodologies and studies in the area of computer-assisted language learning (CALL).

The learning outcomes of TSL717 were developed in line with the current evidence-base for upskilling beginning teachers in CALL and teaching. Students will reflect on their confidence levels and experiences with the use of technology in the TESOL classroom. They will collaborate weekly to evaluate a range of apps demonstrated in the lectures and tutorials according to a defined set of criteria developed from a range of seminal researchers in the CALL discipline. Finally, students will consolidate their knowledge and understanding of CALL methodology by developing a CALL task designed for classroom use.

To encourage effective development and assessment of the KOI Master's Degree attributes of communication and leadership and strategy, students will be required to create their own group charter with values and mission statements and take part in weekly peer and self-assessment of contributions to group work.

2.2 Graduate Attributes for Postgraduate Courses

Graduates of the *Graduate Certificate of TESOL*, the *Graduate Diploma of TESOL* and the *Master of Arts (TESOL)* courses from King's Own Institute will achieve the graduate attributes expected from successful completion of a Master's degree under the Australian Qualifications Framework (2nd edition, January 2013). Graduates at this level will be able to apply an advanced body of knowledge in a range of contexts for professional practice or scholarship and as a pathway for further learning.

King's Own Institute's generic graduate attributes for a master's level degree are summarised below:

	KOI Master's Degree Graduate Attributes	Detailed Description
	Knowledge	Current, comprehensive and coherent knowledge, including recent developments and applied research methods
	Critical Thinking	Critical thinking skills to identify and analyse current theories and developments and emerging trends in professional practice
	Communication	Communication and technical skills to analyse and theorise, contribute to professional practice or scholarship, and present ideas to a variety of audiences
	Research and Information Literacy	Cognitive and technical skills to access and evaluate information resources, justify research approaches and interpret theoretical propositions
	Creative Problem Solving Skills	Cognitive, technical and creative skills to investigate, analyse and synthesise complex information, concepts and theories, solve complex problems and apply established theories to situations in professional practice
	Ethical and Cultural Sensitivity	Appreciation and accountability for ethical principles, cultural sensitivity and social responsibility, both personally and professionally
	Leadership and Strategy	Initiative, leadership skills and ability to work professionally and collaboratively to achieve team objectives across a range of team roles Expertise in strategic thinking, developing and implementing business plans and decision making under uncertainty
	Professional Skills	High level personal autonomy, judgement, decision-making and accountability required to begin professional practice

Across the course, these skills are developed progressively at three levels:

- **Level 1 Foundation** – Students learn the skills, theories and techniques of the subject and apply them in stand-alone contexts
- **Level 2 Intermediate** – Students further develop skills, theories and techniques of the subject and apply them in more complex contexts, beginning to integrate the application with other subjects.
- **Level 3 Advanced** – Students have a demonstrated ability to plan, research and apply the skills, theories and techniques of the subject in complex situations, integrating the subject content with a range of other subject disciplines within the context of the course.

2.3 Subject Learning Outcomes

Listed below, are key knowledge and skills students are expected to attain by successfully completing this subject:

Subject Learning Outcomes	Contribution to Graduate Attributes
1) Use and reflect on personal technical knowledge/skills and their relationship with personal pedagogical knowledge/skills.	
2) Evaluate the use of specific technologies in the TESOL classroom according to defined pedagogical criteria.	
3) Design CALL activities and tasks	

2.4 Subject Content and Structure

Below are details of the subject content and how it is structured, including specific topics covered in lectures and tutorials. Reading refers to the text unless otherwise indicated.

Weekly Planner:

Week (beginning)	Topic covered in each week's lecture	Reading(s)	Expected work as listed in Moodle
1 28 Oct	Introduction to Technology and Language Education	Refer to Moodle	Tutorial exercises Complete TPACK survey
2 04 Nov	Online Course Delivery and Hybrid Teaching Generative AI and latest developments in technology for language teaching	Refer to Moodle	Tutorial exercises Contribute to ePortfolio
3 11 Nov	Technology for Teaching & Learning Grammar, Vocabulary and Pronunciation	Refer to Moodle	Assessment 1 Due Tutorial exercises Contribute to ePortfolio
4 18 Nov	Technology for Teaching & Learning Receptive Skills	Refer to Moodle	Tutorial exercises Contribute to ePortfolio
5 25 Nov	Technology for Teaching & Learning Productive Skills	Refer to Moodle	Tutorial exercises Contribute to ePortfolio
6 02 Dec	Technology for Intercultural Competence	Refer to Moodle	Tutorial exercises Contribute to ePortfolio
7 09 Dec	CALL and Learning Outcomes Essential Skills for Teaching Online	Refer to Moodle	Tutorial exercises Assessment 2 Due
8 16 Dec	Mobile Assisted Language Teaching & Learning	Refer to Moodle	Tutorial exercises
9 06 Jan	Digital Gaming in Language Teaching & Learning	Refer to Moodle	Tutorial exercises
10 13 Jan	Augmented reality	Refer to Moodle	Tutorial exercises
11 20 Jan	Technology in Language Assessment	Refer to Moodle	Tutorial exercises Assessment 3 Due
12 28 (Tue) Jan	Continuing Teacher Education and Professional Development	Refer to Moodle	Assessment 3 Due Assessment 4 Due Presentations during tutorial class.
13 03 Feb	Study Review Week		
14 10 Feb	Examinations Continuing students - enrolments for T125 open	Please see exam timetable for exam date, time and location	

Week (beginning)	Topic covered in each week's lecture	Reading(s)	Expected work as listed in Moodle
15 17 Feb	Student Vacation begins New students - enrolments for T125 open		
16 24 Feb	• Results Released • Review of Grade Day for T324 – see Sections 2.6 and 3.2 below for relevant information. • Certification of Grades NOTE: More information about the dates will be provided at a later date through Moodle/KOI email.		
T125 3 Mar 2025			
1 03 Mar	Week 1 of classes for T125		

2.5 Teaching Methods/Strategies

Briefly described below are the teaching methods/strategies used in this subject:

- *Lectures* (2 hours/week) will be delivered online and address the subject content, preparatory readings, while use of a range of educational technologies. A range of formative activities to support understanding and content will be used including online polls, note-taking, discussion forums, quizzes and more.
- *Tutorials* (1 hour/week) include class discussion of case studies and research papers, practice sets and problem syndicate work on group projects. Tutorials often include group exercises and so contribute to the development and cultural understanding. Tutorial participation is an essential component of the subject and contributes to many of the graduate attributes (see section 2.2 above). Tutorial participation contributes towards the assessment (see details in Section 3.1 for this subject). Supplementary tutorial material such as case studies, recommended questions etc. will be made available each week in Moodle.
- *Online teaching resources* include class materials, readings, model answers to assignments and exercises and more. All online materials for this subject as provided by KOI will be found in the Moodle page for this subject. Students should check Moodle regularly as material may be updated at any time during the trimester
- *Other contact* - academic staff may also contact students either via Moodle messaging, or via email to the email address provided to KOI on enrolment.

2.6 Student Assessment

Provided below is a schedule of formal assessment tasks and major examinations for the subject.

Assessment Type	When Assessed	Weighting	Learning Outcomes Assessed
Assessment 1: Reflection	Week 3	20%	a, b,
Assessment 2: Portfolio	Week 7	40%	a, b
Assessment 3: Design a CALL task	Weeks 11-12	30%	a, b, c
Assessment 4: Self and Peer Review of Contributions to Tutorials	Week 12	10%	a, b

Requirements to Pass the Subject:

To gain a pass or better in this subject, students must gain a *minimum of 50%* of the total available subject marks.

2.7 Prescribed and Recommended Readings

Provided below, in formal reference format, is a list of the prescribed and recommended readings.

Prescribed Texts:

There is no prescribed reading for this subject. Refer to Moodle for weekly readings.

Recommended Readings:
