The KOI Story

King's Own Institute (KOI) is a tertiary level institution located in central Sydney and Newcastle, Australia, offering high quality accredited undergraduate and postgraduate courses in Accounting, Business, Management, Information Technology (IT), Information Systems (IS) and Teaching English to Speakers of Other Languages (TESOL).

King's Own Institute is named after a regiment of the British army with which the CEO and Dean was associated as an exchange officer. KOI adopts a similar spirit and values with traditions and an established reputation for its recognised development of successful leaders.

Our initials, KOI, have a second meaning, as the word "koi" in some Asian languages is a wild carp. The koi is energetic and can swim upstream against the current. According to legend if a koi succeeded in climbing the falls at a point called Dragon Gate on the Yellow River it would be transformed into a dragon fish.

This demonstrates perseverance in adversity and strength of purpose. The koi represents courage and the ability to attain high goals because of its strength and determination to overcome obstacles. Similarly, KOI aims to be a recognised leader as an education provider famous for nurturing students into successful careers. The experience of the higher education journey can be as important as the qualification itself.

Here at KOI, we strive to ensure each student has a fruitful, enjoyable and memorable career-shaping experience.

KOI VISION

Success in higher education through excellence and innovation

KOI MISSION

To become a leading education provider distinguished for nurturing our students and preparing them for global careers

KOI CORE VALUES

Practical education
Student-centred service
Collaboration
Innovation
Ethical principles

WHY KOI?

Here at King's Own Institute, we want the career-shaping experience to be

FRUITFUL ENJOYABLE MEMORABLE

Smart Investments, Lower Tuition Fees

One of the standout features of KOI is its competitive tuition fees compared to many other institutions in Australia. This affordability is appealing to international students who are conscious of their budget yet want to receive a high-quality education without incurring excessive debt.

Flexibility within Hybrid Study

Hybrid study mode provides students with the flexibility to choose between attending classes in person and participating online. This flexibility is especially beneficial for international students who have difficulty attending classes in person.

Accredited Courses which Empower Excellence

KOI is accredited by relevant Australian education authorities, ensuring that the degrees awarded are recognised and respected globally. This accreditation provides international students with a sense of security about the quality of education they receive.

Convenience of Locations

KOI is located in the heart of Sydney and Newcastle, Australia. Both KOI locations, in Sydney and Newcastle, are dedicated to delivering high-quality education and fostering a global perspective in a supportive and culturally diverse environment.

English Language Support

For international students whose first language is not English, KOI often provides language support services, including free English language classes Learning Skills Centre (LSC). This support helps students improve their language skills and succeed academically.

Internship & Beyond: Your Launchpad to Success

Many international students choose KOI because of its strong connections with local industries and businesses. This can lead to internship and work opportunities during or after completing their studies, helping students gain valuable practical experience and secure employment.

Empowering Students, Enriching Futures

KOI offers comprehensive support services to international students, including academic advising, English language support, career counselling, and assistance with various matters. These services ensure that international students feel well-supported throughout their time at KOI.

Guiding Excellence with Experienced Expertise

KOI is known for its dedicated and experienced faculty members. Most teachers have both academic qualifications and practical industry experience. Having teachers with industry experience, professional memberships and globally recognised qualifications from distinguished universities are advantageous for students.

Diverse Student Community

KOI prides itself on its diverse student community. International students find a welcoming and inclusive environment that fosters cultural exchange and learning. This diversity enhances the overall educational experience and helps students develop a global outlook.

Small Class Sizes

KOI maintains small class sizes, which is a significant advantage for international students. Smaller classes allow for more personalised attention from teachers, facilitating better understanding and interaction. Students can actively engage in discussions, ask questions, and build strong relationships with their teachers.

Accessibility

Online components of the curriculum allow international students to access course materials and lectures from anywhere with an internet connection. This accessibility is particularly advantageous for students who may need to balance their studies with part-time work or other commitments.

Student Life in KOI

KOI promotes a vibrant student life with various clubs, societies, and extracurricular activities. This helps international students not only to excel academically but also to form friendships and create lasting memories during their time in Sydney and Newcastle.

KOI International Student Scholarship and Financial aid

KOI often provides scholarships and financial aid opportunities for both domestic and international students. The scholarships can help alleviate the financial burden and make education more accessible to deserving students.

Graduates and Alumni Network

KOI has over 15,000+ graduates working across Australia and throughout the world, providing alumni networking opportunities. Alumni can provide insights into opportunities in different regions and offer guidance on international career paths.
